EIR Embossing

The 2DSGN Tuscany and Alpine palettes have an EIR embossing which stands for Embossed in Register.

EIR is a manufacturing method that creates a grain appearance consistent with the look of a real hardwood grain. This process aligns the embossing on the sheet with the printed wood grain design and intensifies the visual impact of the depth, texture and appearance of the floor while still providing durability and ease of maintenance.

AVA 2DSGN

Meticulously designed to look like hardwoods and built to endure heavy traffic, 2DSGN glue down planks offer soft wood grains and contemporary styles with a balanced palette of 22 colors. The Alpine and Tuscany collections feature registered embossed finishes with microbevel edges while the Peninsula and Weathered collections are straight-edge planks.

The highly durable AMP finish provides 30% more scratch resistance over typical coatings, making 2DSGN suitable for high-traffic Retail, Healthcare, Education and Corporate environments, as well as Multi-Family settings.
