Eco-Clicks cork Rugged & Chestnut • Cabot Public Library • Robert M. Schelle Architects • Photographer: Ken West

Made from the bark of the cork oak tree, cork is natural, durable, quiet and comfortable. Eco-Clicks cork is constructed on the glue less Uniclic tongue and groove system.

Made in layers, Eco-Clicks top layer is 3 mm pre-finished cork; the middle layer is 6 mm moisture resistant HDF board with an edge sealing system and the bottom layer is 1.5 mm cork underlayment with antibacterial protection.

Standard plank size is 12" x 36" (nominal) x 10.5 mm. All Eco-Clicks cork colors/patterns are also available in 7.6" x 45.83" (nominal) x 10.5 mm floating floor planks; minimums, leadtimes and an up charge will apply. All Eco-Clicks cork colors/patterns can be made in glue down tiles. Please inquire.

All patterns are random and not intended to match or line up. Like all natural wood, cork has shade variations; attention to blending shades when installing is necessary. UV rays will fade natural wood including cork.

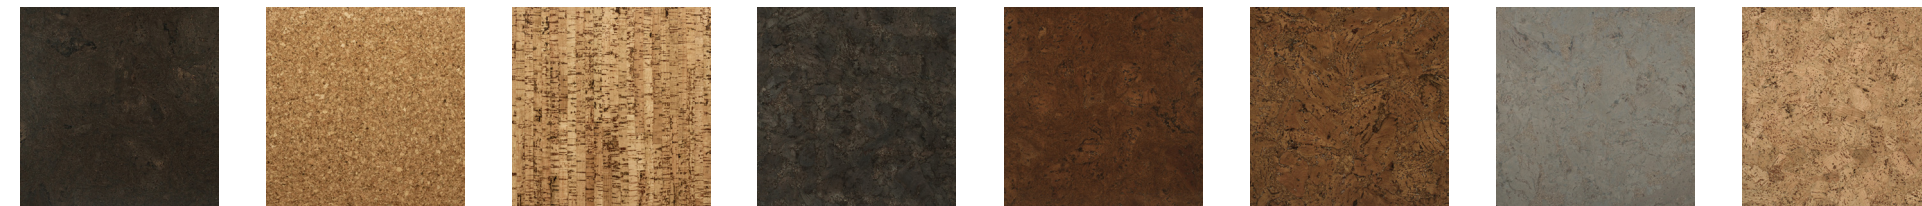

Eco-Clicks cork has 45.3% pre-consumer recycled content and does not contain any LBC Red List ingredients. Eco-Clicks cork passes CA 01350.

Floating floors are suitable for use in many commercial areas and can be installed on, below or above grade over many hard surfaces. As the name implies, floating floors "float" as a unit with expansion spaces necessary.

Capri offers coordinating accessories to be used with Eco-Clicks cork.
